Extraordinary
performance

Finest, custom crafted
Danish loupe and
LED systems

Our essence

At ExamVision we combine the rich heritage of Danish design with a commitment both to aesthetics and functionality. We come from Samsø, a tiny Danish island which is known worldwide for its renewable energy. The peace and natural beauty of Samsø affords us the perfect environment in which to think big, work hard and pay meticulous attention to every single detail.

We believe that magnification and ergonomics go hand in hand

Our team of optometrists and highly trained specialists will work closely with you to select the perfect loupe solution tailored exactly to you.

They will listen to your most pressing needs and offer you an ideal solution, making sure that your loupes are uniquely fitted to you and that they facilitate a superior ergonomic position.

Try out ExamVision loupes for yourself and receive complimentary advice and guidance on vision, optics, protection and ergonomics at your ExamVision dealer.

Your benefits

All our products are the result of a perfect synergy between technology and handcraft. We produce and assemble each loupe based on individual measurements. They then undergo a rigorous quality control process before leaving the factory.

- **Excellent vision and precision**
Our optics help you achieve the crystal clear image you need for high-quality, precision work.
- **Work satisfaction**
Achieved through better treatment results, faster work and happier, well-treated patients.
- **Peace of mind**
Five-year warranty on all our loupes, with unrivalled dealer service support.
- **Longer working life**
An improved ergonomic position via customised loupes is proven to avoid musculoskeletal problems.
- **Style and functionality**
Five-times winner of the international product design award - Red Dot Design Award.
- **Customised solution**
Our specialists in optics and ergonomics ensure a solution tailored uniquely to you.

Don't hesitate to contact your local ExamVision dealer for further information and guidance.

Custom-crafted loupes

ExamVision TTL loupes use the highest quality components available, handcrafted to your exact specifications.

Key features

- Premium Danish design.
- Fully adjustable, lightweight, high-grade carbon-fibre or titanium frames.
- World class optics with the finest anti-reflective, protective coatings.
- Built-in prevention of chromatic aberration (colour separation).
- Loupe angle up to 40° and custom working distance up to 60 cm, to improve posture and ergonomics.
- Infinitely adjustable, to suit vision and working position.
- Compatible with a range of light sources.

Vision and lenses

ExamVision specialises in optics and optical solutions. We are proud to offer the most customisable loupes on the market, built from only the finest components and protective coatings.

High-end optics

- Accommodation of any prescription. Best possible optical solution for your eyes, in both the oculars and carrier lenses.
- Carrier lens solutions – 100% customised: We offer Monofocal, Bifocal straight line and Multifocal/ Progressive lenses.
- Hi-Index lenses (lighter, thinner and more impact-resistant).
- BlueLight Protection (BLP), in both the ocular and carrier lenses available as add-on against harmful Blue-Violet light.
- Vision+Lens Protection (VLP) with built-in anti-reflection, filtering 99% of harmful UV light and provides greater scratch resistance.
- Prisma Lens System™ (see p.11).
- Designed to accommodate any prescription and any future changes in eyesight.

Accessories

ExamVision provides a wide range of accessories which complement and complete your loupes and light systems, by adding unique design features and functionality to your loupes.

From more functional and essential accessories such as travel cases, cleaning solutions and protective shields in various sizes to the ones that will complement your style. For instance, a wide range of coloured temple tips.

So, add that extra comfort and design to your daily routines. Check out examvision.com to see what will meet your needs.

ExamVision Lights

Designed to complement ExamVision loupes, our light systems are tailored to deliver the exact amount of illumination, right where you need it. Check out examvision.com to see, what will meet your needs.

Key features

- Wide range of light systems available.
- From 2 to 24 hours operating time, depending on chosen light system and light intensity.
- Wireless or cable powered lamp options.
- Hands-free operation for sterile environments.

Ergonomics

Good ergonomics are essential for a long, enjoyable, healthy working life.

Ergonomics and safety

By using magnification, you will not only achieve an optimal, ergonomic working position but also increase the safety distance between your face and your patient significantly. Magnifying loupes will allow you to perform professionally without compromising your own body or protection.

Get qualified ergonomics advice

With your ExamVision loupes, you also receive a free session with your specialist dealer. During this session, your dealer offers you ergonomics advice to help you work in a way that promotes physical wellbeing and good posture.

Prisma Lens System™

The Prisma Lens System™ allows you to sit up straighter and achieve a better working posture by making the focus of your vision appear higher than it really is. Prisma Lens system™ is optional.

- With Prisma Lens System™
- With loupes
- Without loupes
